

@EASE Transactions: Donations, Tickets, Registrations  
Updated May 2015

## @EASE Donate Administrator and Donate Now

We are offering our clients the opportunity to opt out of using pages like Canada Helps, to have their own personalized Donation Page that works seamlessly with @EASE.

- Save Time using the @EASE Donate page.
- Acquire Quality Data ready to import.
- Benefit by receiving all the data.

The page can be used for a One Time Donation;  
The page can be used to receive a Pledge, on-going or fixed-length.  
The page can be used to sell event tickets.  
The page can be used to register participants.  
The page can be used for a single item purchase.

We will continue to modify and add new pieces of information as they are required. So the site, much like @EASE will reflect our client's needs.

The initial set up of your site is \$399.00. This is a one time cost which will create your site and offer your the donate now link as well as an administrative link. We will include training to help you set up your initial campaigns.

An annual maintenance fee of 20% of this amount will be payable to Batsch Group. This fee will start in January.

The costs paid to iATS include \$16.00 per month for clients running both credit card and EFT (monthly donations through @EASE), so for those using iATS this will not change.

The fee structure is below. Batsch Group will take a 0.45 % of all transactions. Please remember, most credit card transactions are small and do not reflect large dollar figures.

As this table was created by iATS the row for Software under Setup Fee should be ignored.

Eg donation of \$10.00 Batsch Group received \$0.45
